

DOUBLE-R CAPITAL MANAGEMENT

OVERVIEW

Double-R Capital Management collaborated with E-Volve Energy to deploy solar systems on three of their buildings, prioritizing excellence, professionalism, and punctuality. Confronted with rising energy expenses tied to traditional utility sources, their buildings grappled with \$79,466 in electricity costs annually. In pursuit of a sustainable and cost-effective energy alternative, the company enlisted E-Volve Energy's expertise to secure control over electricity expenditures for the foreseeable future.

CONCLUSION

In conclusion, the partnership between E-Volve and Double-R Capital Management has yielded impressive results, with new roofs and solar systems installed across three buildings. The initiative has generated substantial savings of \$57,406 in the first year and is projected to save \$1,288,292 in total over the next 25 years. This serves as a compelling example of how businesses can leverage these innovative technologies to reduce costs, minimize their carbon footprint, and pave the way for a more sustainable future.

E-Volve has not only enhanced the operational efficiency of our buildings but has also reinforced our company's reputation as a leader in sustainable business practices. I highly recommend E-Volve to any organization seeking innovative energy solutions tailored to their specific needs. Their professionalism, expertise, and commitment to excellence make them an invaluable partner in driving positive change.
